

## REMARKS

The objection to claims 1-5 have been cured by amending the claim to make it clear that it is directed to a computer implemented method as requested.

The Declaration under 36 C.F.R. 1.131 is attached to overcome the rejection under 103(a). The Declaration establishes that the subject matter claimed herein was invented prior to the asserted date of the alleged prior art. Therefore, the rejection should be overcome.

In view of these remarks, the application should now be in condition for allowance.

Respectfully submitted,

Date: November 30, 2004
